TROY STREET DIRECTORY.

Giving the name of each street, and showing what other streets and places run from it or across it with the number at which they intersect.

From the list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, look at Second street on page 14 and find that Liberty street crosses at 156, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

CENTRAL OFFICE, ARBA READ STEAMER HOUSE.

Location of signal stations, and rules and regulations to be observed in giving an alarm of fire.

Directions to those holding Signal Station Keys.

1. Never open the Box or touch the Hook except in case of fire *near you.*
2. Never pull the Hook when the small Bell in the Box is tapping.
3. Never let the key go out of your possession, except to some known responsible person, to give an alarm.

EVERY POLICEMAN HAS A KEY.

SESSIONS.

The School year is forty weeks or four quarters of ten weeks each. Commencing with the third Wednesday in September, closing with the last Wednesday in June. The only vacation is during the Christmas holidays.

The success which has attended the efforts of the trustees of the Seminary to maintain a day school of the first-class in Troy is assured. The patronage of our citizens is generous, and the scholarship and progress of the pupils satisfactory.

The Institution has recently been more completely equipped for instruction in the physical sciences and classes in primary branches have been arranged, which offer unusual advantages for young children.

It is confidently asserted that pupils residing at their own homes in Troy, have at the Seminary, means of advanced education equalled by only a few of the best boarding schools and colleges for young ladies in the country.

The School thus affords to the citizens of Troy unexcelled facilities for the thorough and economical education of their daughters, while surrounded by home influence and parental care.

An investigation of the merits of the school is respectfully invited.

This Company owns the entire water power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall, one hundred and twenty feet, giving nearly ten thousand horse power. The Company's gate house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory building, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the quality, is the cheapest in the country. It is an unfailing power; and during the past few years, while most of the water powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson Rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

No. 10 First Street, Troy, N. Y.

1843. JANUARY 1, 1889. 1889.

The Mutual Life Insurance Company

OF NEW YORK.

RICHARD A. McCURDY, President.

Assets, $126,082,153.56. Liabilities, $118,142,089.93.

Surplus, $7,940,063.63.

Offers its Distribution Policy as the most desirable form of Life Insurance contract ever presented. Its features are as follows:

1.—After two years this Policy places no restrictions upon the insured in respect to Residence, Travel or Occupation.

2.—Danger of forfeiture is avoided by the agreement, on the part of the Company, after the Policy has been in force three years, to give such an amount of paid-up insurance as will be purchased by the entire interest of the Policy-holder in the accumulations of the Company.

3.—Dividends will be credited to the Policy at selected periods, which dividends can be drawn in cash if desired.

4.—The Policy contract is in the simplest form. If the insured pays his premium while he lives, the Company will pay his Policy when he dies.

5.—A definite and liberal cash surrender value is guaranteed, for which the Policy can be canceled.

6.—A Policy which becomes a claim by death will be paid as soon as proofs are accepted.

7.—A Policy which is absolutely incontestable after two years.

Policies are issued having Distribution Periods of Fifteen or Twenty Years, as the applicant may elect. At such times the insured has the right to surrender his Policy to the Company and receive therefor in cash his entire interest in the funds of the Company, together with the dividends which have accrued. The cash surrender value of the Policy is guaranteed in the terms thereof.

The options which are presented to the insured at the end of any distribution period are as follows: he may

Surrender Policy and dividends for Cash; or,
Surrender Policy for a Paid-up Policy, and draw Dividends in Cash; or,
Surrender Policy and Dividends for a Paid-up Policy; or,
Continue Policy and use Dividends in reduction of future Premium; or,
Ccntinue Policy (at original rate) and draw Dividends in Cash; or,
Continue Policy (at original rate) and let Dividends increase Policy; or,
Continue Policy (at original rate) and use Dividends to Purchase an Annuity.

Also, ENDOWMENTS with LIFE OPTION on an ENTIRELY NEW PLAN.

NEW YORK STATE GENERAL AGENCY,

Northwestern Mutual Life Insurance Co.

OF MILWAUKEE, WIS.,

ORGANIZED 1857.

JANUARY 1, 1889.

Assets, $32,672,811. Liabilities, $27,987,374.

Surplus, $4,685,437.

The Surplus consists of Interest Bearing Mortgages, not of Premiums on Fluctuating Securities.

STRONGEST.

A larger ratio of Surplus to Liabilities (allowing for Tontine Accumulations) than any other large company.

SAFEST.

The only large Company without a dollar of fluctuating securities. Seven-eighths of Assets invested in Bonds and Mortgages at western rates of interest. Charter requirements. and laws of Wisconsin, prevent this Company from investing in, or loaning upon Stocks and Bonds of Railroads, Cable, Trust, Gas Light, Ferry, Navigation, Guarantee and Indemnity, Transcontinental, Street Railway, Elevated Road, Mining and other similar fluctuating securities.

This Company writes no Insurance in Foreign Countries, and its business is practically confined to the Northern United States. ITS MORTALITY FOR YEARS HAS BEEN FAR BELOW ANY OTHER LARGE COMPANY.

CHEAPEST.

While the premiums are about the same, or lower than in other companies, **the dividends of the Northwestern are vastly larger than in other companies, ENABLING IT TO AFFORD PRECISELY SIMILAR POLICIES AT FROM FIFTEEN to FORTY PER CENT BELOW THE USUAL COST, and to return a much larger amount of Surplus, under Semi-Tontine policies, than any other leading company possibly can. ITS INVESTMENT POLICIES PAY 6 PER CENT COMPOUND INTEREST, BESIDES LIFE INSURANCE.**

BEST.

The Northwestern is located to receive the highest rates of interest, on the best and safest investments. Its Mortality for the past 15 years has been lower than any other large company! These advantages, combined, produce a startling difference in the cost of Policies in favor of the Northwestern over all other companies.

NO "TONTINE," "SEMI-TONTINE," "DISTRIBUTION," or other deferred Dividend Policies ISSUED BY THIS COMPANY. Annual Cash Dividends are paid each policy-holder, or can remain with Company at compound interest subject to call at any time, thus avoiding all risk of LOSING DIVIDENDS by death or lapse, AS IS THE CASE IN ALL deferred dividend policies.

No "ESTIMATES" offered by Agents, but a policy contract issued by the Company in which EVERY FIGURE IS GUARANTEED.

In case of lapse policies become automatically paid up for sum guaranteed therein.

Assets, over $95,000,000. Surplus, over $13,500,000.

ANNUAL INCOME, over $25,000,000.

THE TONTINE POLICIES of the New York Life Insurance Company, that have matured, have shown the **Best Results of any Policies in any Company** (whether Tontine or ordinary), issued at like ages and premium rates, and running through the same Period of Time.

Fair Questions for 1889:

1st.—Why do you leave your Family, your Estate and your Old Age unprotected when the NEW YORK LIFE INSURANCE COMPANY will make them all safe under a single policy?

2nd.—Why do you carry co-operative insurance and invest money in bonds or banks when the NEW YORK LIFE will sell you cheaper insurance than the co-operative and a better investment than the bank?

3rd.—Why do you insure under the old style policies when the NEW YORK LIFE will sell you a policy with guaranteed dividend of 100 per cent. of all premiums paid in case you die within twenty years?

4th.—Why do you work for a small behind-the-times company, Messrs. Agents, when you can do twice the amount of business for the NEW YORK LIFE?
